

**GROUP PROCESS,  
GROUP DECISION,  
GROUP ACTION**

SECOND EDITION

**Robert S. Baron and  
Norbert L. Kerr**

OPEN UNIVERSITY PRESS  
Buckingham • Philadelphia

# CONTENTS

Preface  
Acknowledgements

ONE

**Introduction**  
Key concepts  
Initial considerations  
The defining of a group  
Explaining human reliance on groups: some theoretical perspectives  
    *Conditioning and social comparison theories*  
    *Social identity and self-categorization theories*  
    *Exchange theory*  
    *Sociobiological theory*  
    *Optimal distinctiveness theory*  
Group characteristics  
    *Group norms*  
    *Group size*  
    *Group structure*  
    *Group cohesion*  
    *Leadership*  
    *Stages*  
    *Group entitativity*  
Summary  
Suggestions for further reading

TWO

**Social facilitation**  
Key concepts  
Background  
Drive theory and social facilitation  
Zajonc's mere presence hypothesis  
    *Cottrell's learned drive view*

Distraction/conflict (D/C) theory	25
Drive theory on trial	27
Self-based theories of social facilitation	29
<i>Self-presentation theory</i>	29
<i>Self-efficacy theory</i>	30
Attentional theories	31
Summary	34
Suggestions for further reading	34
Note	35

<b>THREE</b>	<b>Individual versus group performance</b>	36
	Key concepts	36
	Introduction	36
	Early research	37
	Task, resources and potential: Steiner's model of group performance	38
	The experimental analysis of process loss	43
	<i>Group member characteristics</i>	43
	<i>Brainstorming</i>	44
	<i>Group size and performance</i>	47
	Summary	49
	<i>Solution to the Husbands &amp; Wives problem</i>	50
	Suggestions for further reading	50

<b>FOUR</b>	<b>Task motivation in groups</b>	51
	Key concepts	51
	Introduction	51
	Group motivation losses: social loafing	52
	<i>Identifiability-mediated motivation losses</i>	53
	<i>Free riding</i>	55
	<i>Inequity-based motivation losses</i>	58
	Group motivation gains	60
	<i>The Köhler effect</i>	60
	<i>Social compensation</i>	63
	Summary	66
	Suggestions for further reading	66

<b>FIVE</b>	<b>Social influence and conformity</b>	68
	Key concepts	68
	Background	68
	Social comparison theory	69
	Ostracism	71
	Conformity	73
	<i>Classic studies</i>	73
	<i>The benefits of conformity</i>	75
	<i>Conformity data</i>	76
	Recent research on conformity	78
	<i>Priming</i>	78
	<i>Task importance</i>	78
	<i>Group identification</i>	79

	Minority and majority influence	83
	<i>The afterimage study</i>	84
	<i>Summing across studies</i>	86
	<i>Variables affecting minority influence</i>	86
	<i>The two-process model</i>	87
	<i>Alternatives to conversion theory</i>	89
	Summary	91
	Suggestions for further reading	91
SIX	<b>Extremity in groups</b>	93
	Key concepts	93
	Introduction	93
	Groupthink	94
	<i>Janis' initial model of groupthink</i>	94
	<i>Laboratory research on groupthink</i>	95
	<i>Historical case study reports of groupthink</i>	96
	<i>Revised versions of groupthink</i>	97
	<i>Avoiding groupthink</i>	97
	Group polarization	98
	<i>Early research on group polarization</i>	98
	<i>Competitive social comparison and persuasive arguments</i>	99
	<i>A self-categorization view of group polarization</i>	100
	<i>Group polarization with real consequences</i>	103
	<i>Biases in information sampling</i>	104
	Intense indoctrination	108
	Mob action	111
	<i>Some causes of mob behaviour</i>	111
	<i>Deindividuation research</i>	113
	<i>Emergent norm theory</i>	115
	<i>The ID model</i>	117
	Summary	118
	Suggestions for further reading	119
SEVEN	<b>Social combination approaches to group decision-making</b>	120
	Key concepts	120
	Introduction	120
	Social combination approaches to group decision-making	122
	Jury decision-making	125
	<i>Jury size and decision rule</i>	125
	<i>Juries' leniency bias</i>	127
	An SDS analysis of group performance	129
	Group versus individual susceptibility to judgmental biases	131
	Complex group problem-solving: collective induction	133
	Social communication and social combination: toward integration	135
	Summary	136
	Suggestions for further reading and viewing	137
	Note	138
EIGHT	<b>Social dilemmas</b>	139
	Key concepts	139

	Background	139
	The nature of social dilemmas	140
	Cooperation in social dilemmas: motives and determinants	143
	<i>Dilemma features</i>	144
	<i>Individual differences</i>	146
	<i>Others' choices</i>	147
	<i>Communication and commitment</i>	149
	Structural solutions to social dilemmas	150
	<i>Privatizing</i>	150
	<i>Group size</i>	151
	<i>Supplementary payoffs/costs</i>	151
	<i>Changing the structure of the dilemma</i>	152
	Summary	153
	Suggestions for further reading	154
<b>NINE</b>	<b>Intergroup conflict and aggression</b>	155
	Key concepts	155
	Introduction	155
	Intergroup conflict and aggression	155
	<i>Research on realistic conflict theory</i>	156
	<i>Frustration, aggression and scapegoating</i>	156
	<i>Perceived injustice</i>	157
	<i>Triggering events</i>	159
	Generic sources of intergroup conflict: minimal groups research	160
	<i>Ingroup favoritism in minimal groups</i>	160
	Other perceptual and cognitive biases in intergroup relations	163
	<i>Outgroup homogeneity</i>	163
	<i>The discontinuity effect and schema-based distrust of outgroups</i>	164
	<i>Illusory correlation</i>	164
	<i>Bargaining with the enemy: the carrot vs. the stick</i>	166
	<i>The ultimate attribution error</i>	166
	Reducing intergroup conflict and aggression	166
	<i>Intergroup contact: the contact hypothesis</i>	167
	<i>Superordinate goals</i>	168
	<i>Manipulating social categorization</i>	169
	<i>Gradual and reciprocal concession technique</i>	171
	Summary	172
	Suggestions for further reading	173
	Note	173
<b>TEN</b>	<b>Stress and social support</b>	175
	Key concepts	175
	Background	175
	Affiliation research	176
	Social support	178
	<i>The broken heart effect</i>	179
	<i>Social support research</i>	180
	Explaining the relationship between social support and health	183
	<i>Control and self-esteem</i>	183

---

	<i>Self-disclosure</i>	183
	<i>Immune function</i>	184
	The buffering hypothesis	184
	Can social support be harmful?	185
	Matching theories of social support	186
	Random assignment and social support research	187
	<i>Studies with healthy humans and primates</i>	187
	<i>Research with patient populations</i>	188
	<i>Social skills training</i>	190
	Summary	191
	Suggestions for further reading	192
<b>ELEVEN</b>	<b>Electronic groups</b>	193
	Key concepts	193
	Background	193
	Unique features of computer groups	194
	<i>Attenuation of information exchanged</i>	194
	<i>Loss of non-verbal and paralinguistic information</i>	194
	<i>Loss of status information</i>	195
	Computer-mediated communication and anonymity	197
	Group cohesion and identity	197
	Social corroboration, social support and loneliness	198
	Electronic violence on and off the internet	199
	Similarities between computer groups and face-to-face groups	200
	Social facilitation in electronic groups	201
	Social influence in electronic networks	201
	Working with virtual partners	202
	Summary	203
	Suggestions for further reading and links	204
<b>TWELVE</b>	<b>Concluding thoughts</b>	205
	<i>Glossary</i>	207
	<i>References</i>	215
	<i>Index</i>	260
