Metadata for Semantic and Social Applications

Proceedings of the International Conference on Dublin Core and Metadata Applications
Berlin, 22-26 September 2008
DC 2008: Berlin, Germany

Edited by Jane Greenberg and Wolfgang Klas

Published by the Dublin Core Metadata Initiative, Singapore
and
Universitätsverlag Göttingen
2008
CONTENTS

PAPER SESSION 1 DUBLIN CORE: INNOVATION AND MOVING FORWARD

Encoding Application Profiles in a Computational Model of the Crosswalk 3
Carol Jean Godby, Devon Smith & Eric Childress

Relating Folksonomies with Dublin Core ................................................................. 14
Maria Elisabete Catarino & Ana Alice Baptista

PAPER SESSION 2 SEMANTIC INTEGRATION, LINKING, AND KOS METHODS

LCSH, SKOS and Linked Data ..................................................................................... 25
Ed Summers, Antoine Isaac, Clay Redding & Dan Krech

Theme Creation for Digital Collections .................................................................... 34
Xia hin, Jiexun Li & Xiaohua Zhou

Comparing Human and Automatic Thesaurus Mapping Approaches in the Agricultural Domain ............................................................................................................. 43
Boris Lauser, Gudran Johannsen, Caterina Caracciolo, Johannes Keizer, Willem Robert van Hage & Philipp Mayr

PAPER SESSION 3 METADATA GENERATION: METHODS, PROFILES, AND MODELS

Automatic Metadata Extraction from Museum Specimen Labels ............................. 57
P. Bryan Heidorn & Qin Wei

Achievement Standards Network (ASN): An Application Profile for Mapping K-12 Educational Resources to Achievement Standards ................................................. 69
Stuart A. Sutton & Diny Golder

Collection/Item Metadata Relationships .................................................................... 80

PAPER SESSION 4 METADATA QUALITY

Answering the Call for more Accountability: Applying Data Profiling to Museum Metadata ................................................................. 93
Seth van Hooland, Yves Bontemps & Seth Kaufman

A Conceptual Framework for Metadata Quality Assessment ...................................... 104
Thomas Margaritopoulos, Merkourios Margaritopoulos, Ioannis Mavridis & Athanasios Manitsaris
PAPER SESSION 5 TAGGING AND METADATA FOR SOCIAL NETWORKING

Semantic Relation Extraction from Socially-Generated Tags: A Methodology for Metadata Generation
Miao Chen, Xiaozhong Liu & Jian Qin

The State of the Art in Tag Ontologies: A Semantic Model for Tagging and Folksonomies
Hak Lae Kim, Simon Scerri, John G. Breslin, Stefan Decker & Hong Gee Kim

PROJECT REPORT SESSION 1 TOWARD THE SEMANTIC WEB

DCMF: DC & Microformats, a Good Marriage
Eva Méndez, Leandro M. López, Arnau Siches & Alejandro G. Bravo

Making a Library Catalogue Part of the Semantic Web
Martin Malmsten

PROJECT REPORT SESSION 2 METADATA SCHEME DESIGN, APPLICATION, AND USE

The Dryad Data Repository: A Singapore Framework Metadata Architecture in a DSpace Environment
Hollie C. White, Sarah Carrier, Abbey Thompson, Jane Greenberg & Ryan Scherte

Applying DCMI Elements to Digital Images and Text in the Archimedes Palimpsest Program
Michael B. Toth & Doug Emery

Assessing Descriptive Substance in Free-Text Collection-Level Metadata
Oksana Zavalina, Carole L Palmer, Amy S Jackson & Myung-Ja Han

PROJECT REPORT SESSION 3 VOCABULARY INTEGRATION AND INTEROPERABILITY

Building a Terminology Network for Search: The KoMoHe project
Philipp Mayr & Vivien Petras

Cool URIs for the DDC: Towards Web-Scale Accessibility of a large Classification System
Michael Panzer

The Specification of the Language of the Field and Interoperability
Cross-language Access to Catalogues and Online Libraries (CACACO)  
Barbara Levergood, Stefan Farrenkopf & Elisabeth Frasnelli
POSTER ABSTRACTS

Implementation of Rich Metadata Formats and Semantic Tools using DSpace.........................199
Imma Subirats, ARD Prasad, Johannes Keizer & Andrew Bagdanov

SKOS for an Integrated Vocabulary Structure.................................................................200
Marcia L. Zeng, Wei Fan & Xia hin

Exploring Evolutionary Biologists’ Use and Perceptions of Semantic Metadata for Data Curation.................................................................202
Hollie C. White

LCSH is to Thesaurus as Doorbell is to Mammal: Visualizing Structural Problems in the Library of Congress Subject Headings.................................................................203
Simon Spero

Metadata in an Ecosystem of Presentation Dissemination.................................................204
R. John Robertson, Phil Barker & Mahendra Mahey

A Comparison of Social Tagging Designs and User Participation......................................205
Caitlin M Bentley & Patrick R. Labelle

The Data Documentation Initiative (DDI)........................................................................206
Joachim Wackerow

junii2 and AIRway - an Application Profile for Scholarly Works and Its Application for Link Resolvers.................................................................207
Kunie Horikoshi, Yuji Nonaka, Satsuki Kamiya, Shigeki Sugita, Haruo Asoshina & Izumi Sugita

Open Identification and Linking of the Four Ws.................................................................208
Ryan Shaw & Michael Buckland

Web 2.0 Semantic Systems: Collaborative Learning in Science........................................209
Michael Shoffner, Jane Greenberg, Jacob Kramer-Duffield & David Woodbury

Doing the Library Thing™ in an Academic Library Catalog............................................211
Christine DeZelar-Tiedman

Applying DC to Institutional Data Repositories................................................................212
Robin Rice

AUTHOR INDEX.................................................................................................................213

SUBJECT INDEX.............................................................................................................215
