1 Continuity Theory  
How Did Continuity Theory Arise?  
Continuity Theory as Theory  
Elements of Continuity Theory  
Development versus Aging in Later Adulthood  
Case Examples  

2 Internal Continuity  
Continuity of the Self  
Self-Confidence  
Emotional Resilience  
Personal Goals  
Beliefs about the Effects of Retirement  
Summary  

3 External Continuity  
Living Arrangements, Household Composition, and Marital Status  
Income Adequacy  
Modes of Transportation  
Patterns of Activity: Stability, Continuity, and Change over Time  
How Activities Fit Together to Form Lifestyles  
Summary
4 Adaptive Capacity

Proactive Coping and Motivation for Continuity 78
How Did Respondents Cope? 82
Coping with Specific Changes: Retirement, Widowhood, and Functional Limitations 85
Functional Limitation and the Self 93
Patterns of Coping with Functional Limitations 107
General Patterns of Adaptation 118
Factors Linked to Negative Outcomes in Later Life 126
Summary 130

5 Goals for Developmental Direction 133

Continuity of Personal Goals 133
Disposition toward Continuity 136
Spiritual Development 139
The Theory of Gerotranscendence 142
The Study of Goals for Developmental Direction in Later Life 145

6 Conclusion 147

Assessing Continuity Theory 148
Evidence on the Assumptions and Propositions of Continuity Theory 150
Continuity Strategies Are Generally Effective 154
Methodological Issues Related to the Study of Continuity Theory 155
Future Research Using Continuity Theory 156

Appendixes
A. Tables 159
B. The Ohio Longitudinal Study of Aging and Adaptation 161
C. The 1995 Study Questionnaire 172
D. Worksheets Used to Examine Longitudinal Patterns 197
